

Junior/Senior

Secure-by-Design Consultant (w/m/d)

 Düsseldorf

 Fulltime

 asap

We are Cloudyriion

We create sustainable IT security concepts. Cloudyriion stands for solution-oriented approaches in the areas of risk assessment, penetration testing and consulting. With expertise in the relevant technologies and extensive consulting competence, we provide our customers with a foundation for developing and delivering innovative applications and services.

That is why we are looking for motivated colleagues with the mindset to rethink IT security and to apply new security approaches together with our growing team. With us, you will find the freedom to try things out to purposefully develop your personal and professional skills.

BONUS CARD

What you can expect:

- Analyze documentation reviews and identify security risks earlier in design phase
- Perform an interactive threat evaluation with DevOps teams (brainstorming, whiteboard sessions, etc.)
- Plan, develop, and execute penetration tests
- Generate reports on security risks, communicate mitigation processes and summarize assessment findings to facilitate remediation tasks
- Work with developers in an international environment to provide advice on day-to-day security issues
- Work with enterprise teams on latest technology like: Cloud, DevSecOps, BigData etc.
- Review and develop security strategies, policies, standards, and processes
- Contributing to business development

Who we are looking for:

- Bachelor's/Master's degree, preferably in Information Security, Computer Science or Mathematics with a focus in IT Security or a related field
- Broad understanding of web, API, and cloud technologies
- Quick grasp of complex concepts and analytical way of thinking
- A critical eye, curious nature, and willingness to learn are your strengths
- Sound communication skills and desire to work in a fun and fast-growing team
- Instinctive and creative, with an ability to think like an adversary
- Passion for Cyber Security with a drive for continuous self-development
- Strong written and verbal skills in English
